PATTERN PROOF AND SCIENTIFICALLY DESIGNED STUDY MATERIAL

FIITJEE Medical has always been preparing Students in a fundamental way. The study materials have been designed in a comprehensive way so that Students have a sound understanding of fundamental concepts & get ample practice with all types of problems. This ensures that our students do well in all exams irrespective of pattern, be it NEET, Boards, NTSE, KVPY or Olympiads.

TEACHING METHODOLOGY

At FIITJEE MEDICAL, a Unique Teaching Methodology is followed that focuses on empowering Students to Excel in any exam irrespective of the pattern.

FIITJEE MEDICAL doesn't rely on a certain set questions but keeps on introducing new and different questions from time to time for early exposure among Students. This pattern proof teaching helps Students to be well prepared in advance to face any type of questions and to ace any exam irrespective of the pattern of the exam.

Other unique aspects of our Teaching Methodology include

Making own questions, Teaching a topic by the students and Test Analysis sessions

TEST ANALYSIS

Another initiative pioneered by FIITJEE in the domain of Competitive exam coaching. Tests give the students a proper feedback about their strengths and weaknesses. However, if a test is not analyzed the very purpose of the test is lost. FIITJEE believes test analysis even more important than the test itself. FIITJEE Medical test analysis sessions and reports help the students to take immediate corrective measures
